## OBJECTIVE

Junior Application developer with a passion for creating innovative and user-friendly mobile and web applications. Seeking a challenging position where I can leverage my expertise in designing, developing, and testing Android apps to contribute to the success of a dynamic company.

## EXPERIENCE

**Software Engineer-** DevAppSys IT Solutions Pvt Ltd

July 2024 - Present

- Developing and maintaining cross-platform mobile applications using Flutter and Dart.
- Implementing state management solutions with Cubit for efficient app architecture.
- Collaborating with UI/UX designers to implement responsive and intuitive user interfaces.
- Testing and debugging applications across multiple platforms and devices.
- Developing and maintaining web applications front-end

**Flutter Intern -** Accolade Tech Solutions

April 2024 - June 2024

- Contributing to the development of Flutter applications under senior developer guidance.
- Implementing user interface components according to design specifications.
- Assisting in API integration using Postman for testing and implementation.
- Participating in code reviews and implementing feedback to improve code quality.

**Flutter Intern -** Vricsa Technologies Private Limited

November 2023 - January 2024

- Worked on an open-source Canvas-based application with functionality like StarUML.
- Implemented complex UI components using Flutter's canvas rendering capabilities.
- Collaborated with team members to design and develop application features.

## PROJECTS

**Evie,** *Android /IOS - flutter*

Description: Evie is a smart ring application which reads data from the Evie rings through BLE and does the processing on the app to calculate user Heart rate, Sleep, Calories burned, Active mins and many more.

**EveLog,** *Angular, TypeScript, Tailwind CSS*

Description: EveLog is a real-time user analytics platform that captures and visualizes live user interactions from client applications integrated with the EveLog service. Implemented Server-Sent Events (SSE) architecture for continuous data streaming, enabling instant visualization of user behavior, click patterns, and session recording streaming

**Valura,** *Angular, TypeScript, Tailwind CSS*

Description: Valura is a comprehensive data privacy management and compliance platform developed as an enterprise solution for organizations to manage GDPR, CCPA, and other data privacy regulations. As the frontend developer, I implemented a sophisticated user interface featuring cookie consent management systems, privacy policy builders, and data subject request workflows.

**SprintVC,** *React ,CSS, Bootstrap.*

Description: SprintVC is a SEBI-regulated angel investment platform connecting investors with curated startup opportunities. Developed responsive dashboard interfaces displaying real-time investment metrics, portfolio performance, and fund allocation data using React components. Implemented dynamic KYC verification workflows with conditional routing to ensure regulatory compliance for investor onboarding. Created interactive data visualization charts for tracking investment distributions and returns across multiple funding stages.

**Video Processing Website,** *Web-based Platform - HTML, JS, PHP, MySQL, Firebase,*

Description: The Video Processing Website is a sophisticated web application developed for Accolade Tech Solutions that implements advanced video processing algorithms within a secure, scalable architecture.

**Premier Granites,** *React, Redux Toolkit, Three.js, WebGL*

Description: Premier Granite is a landing page for a granite shop, with 3D Model granite showroom allowing user to customize a room, walls, shelf and floor with the granites.

**Chat App,** *Flutter, Dart, Firebase*

Description: Chat App is a real- time messaging platform developed using Flutter and Dart, the application leverages Firebase's real-time database architecture to deliver instant messages.

## CERTIFICATIONS

Python (Basic) Certificate - Hacker Rank

Java (Basic) Certificate - Hacker Rank

Salesforce Developer Virtual Internship Program -

Certificate of Completion

## EDUCATION

**Master of Computer Applications** (2023 – 2025) **-** 8.19 CGPA

**Bachelor of Computer Applications** (2019 - 2022) **–** 83%

**Pre-University Course** ( 2019) **-** 76%

**SSLC** (2017) - 81%
